This time is ours —
we are living,
loving,
learning
about ourselves and
those around us.
Awareness is our goal
and maturity our hope.
Our childhood years
are quickly closing
in the rays of a sunset.
Yet adulthood awaits us
in the new dawn.
We proudly accept
the challenge of our future.

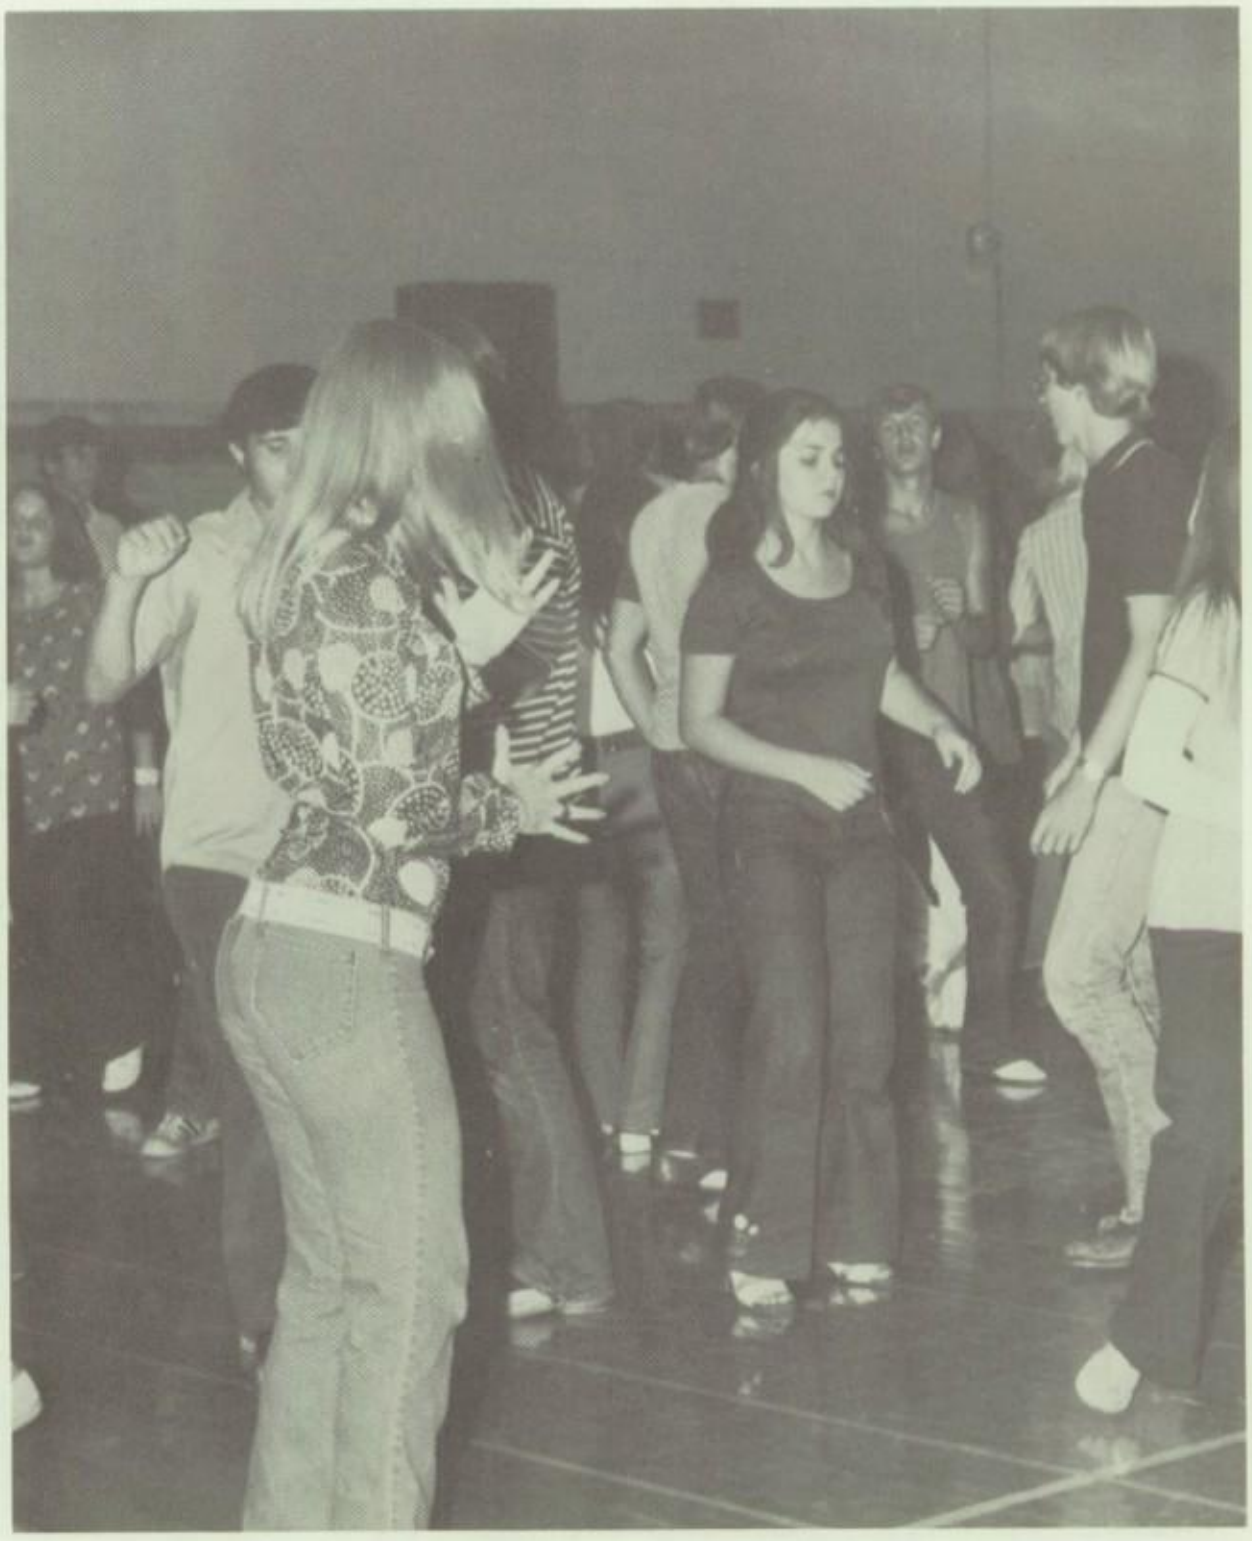
Ready, set, go!



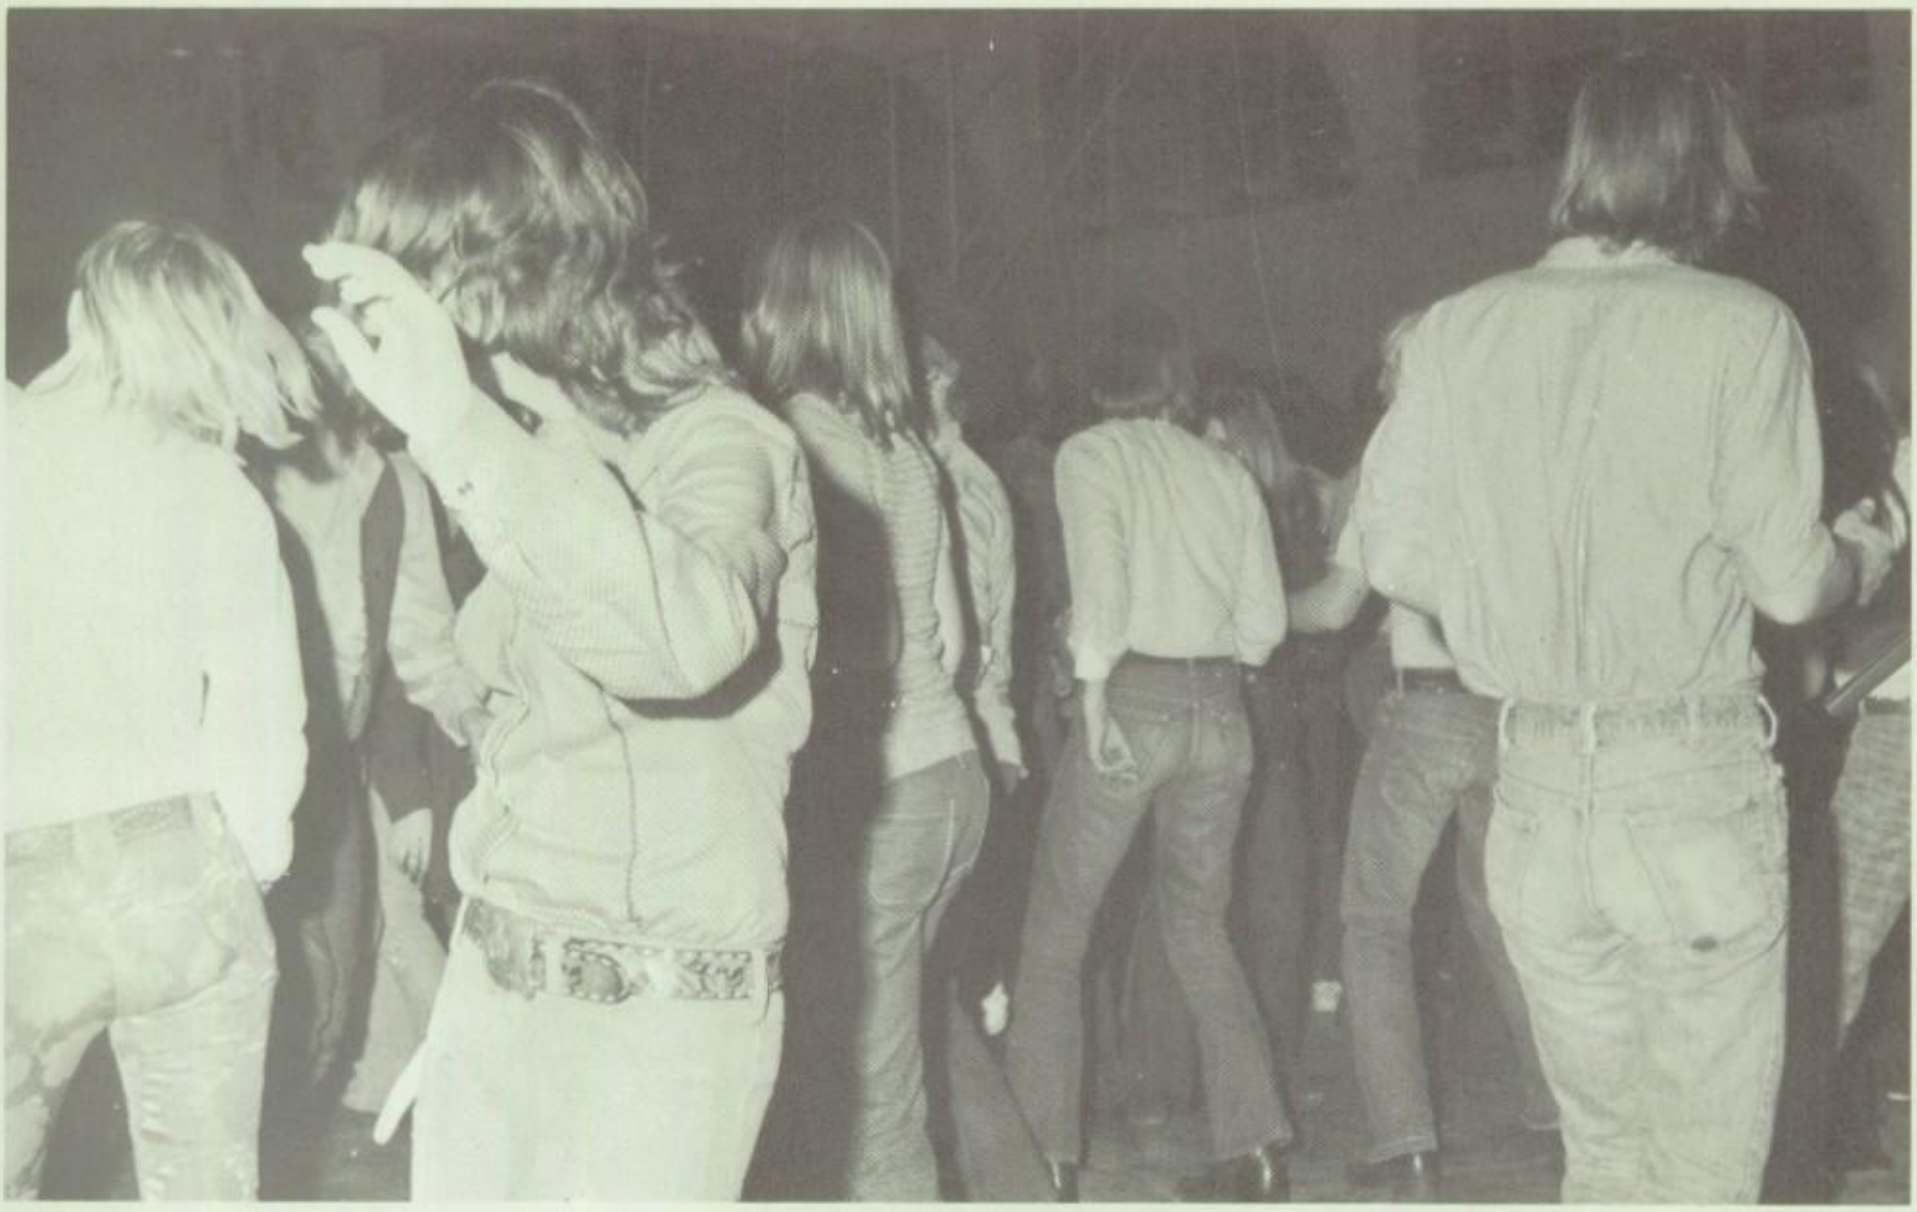
Greta Groover makes the scene.

Pleasant Memories Result From Enjoyable Experiences

Some people don't know whether they're coming or going.

Boy, some of those people dance weird!

Ever get the feeling of claustrophobia?



Each person moves to a different beat.

Give me some of that rock'n'roll.

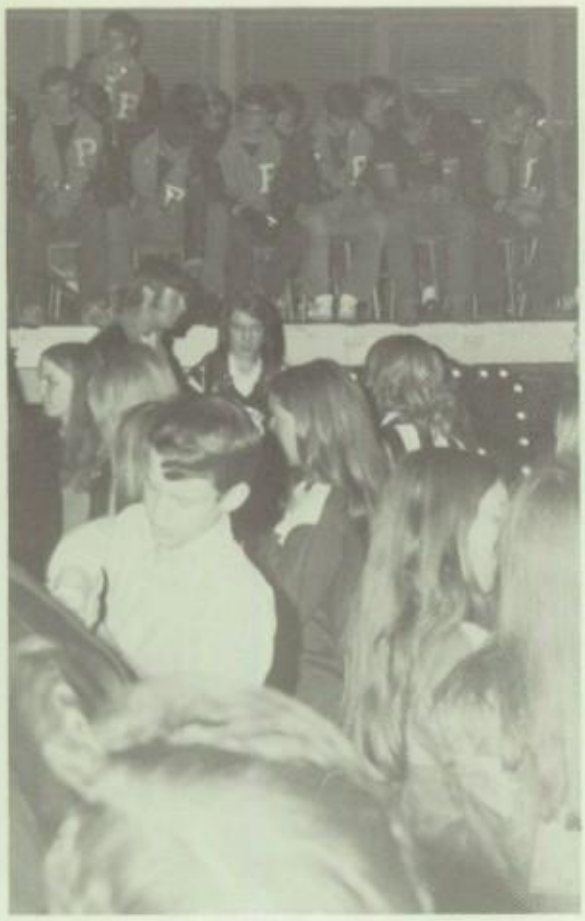
Dancing is togetherness.

Pep Rallies Express Support And Enthusiasm For Permian's Athletes

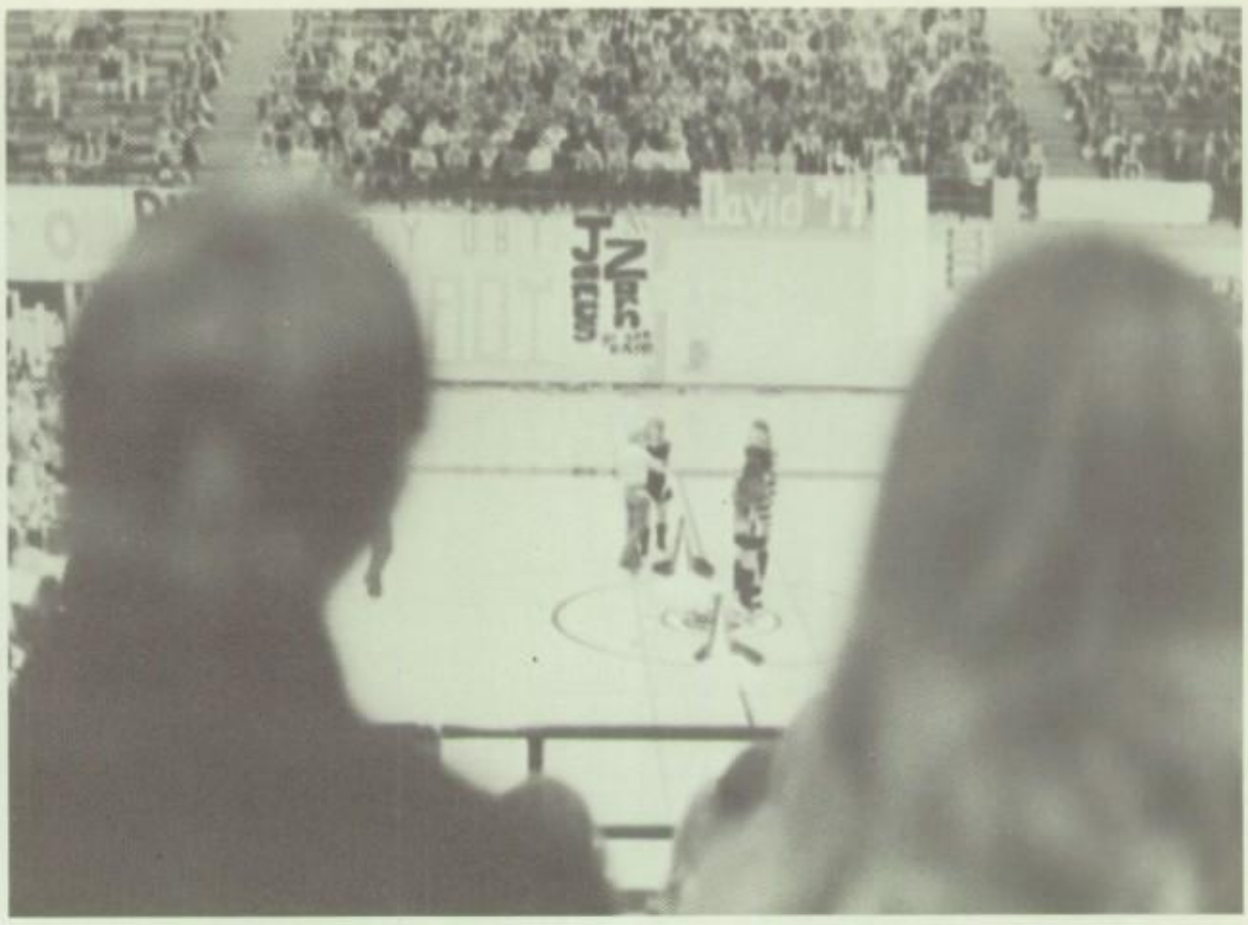
All this for *us?*

Mojo's best beats all the rest.

"Bubble, bubble, toil, and trouble."



The milling, mingling, mangling crowd.



The spectator's view from the stands is exciting.

Standing on top, looking down, down, down.

Happiness is Mojo!

Er, Uh, How — Would you like to go out with me next Saturday night?

And then I called John and asked him out Friday night and then Robert for Saturday and James for Sunday . . .

MISS DORIS FOWLER

Even though Miss Doris Fowler is retiring this year, her name will live on in the minds of Permian students. Miss Fowler was a member of the faculty when PHS first opened its doors and has been a strong supporter of the Black and White ever since. She was the first newspaper and yearbook sponsor and founder of the school's chapter of Quill and Scroll. Another organization at Permian is named for her — the Doris Fowler Chapter of Future Teachers of America. Her Teacher Experience Program is a favorite course for seniors, as well as her honors English classes. And the lines of the alma mater and fight song, sung at every pep rally and MOJO event, were composed by Miss Fowler. A more loyal Panther cannot be found. Thank you, Miss Fowler!

". . . Our childhood dreams are quickly closing
in the rays of a sunset.
Yet adulthood awaits us in the new dawn."

High school is the closing of our years as children with naive dreams and illusions — sometimes fulfilled, often shattered. But high school is also a beginning. It is a time to shape ideas and goals and fuse them together into unique personalities. We are newly emerged butterflies, eagerly testing our wings before seeking new adventure.

We are privileged to have experienced Permian as a testing ground for adulthood. The stages of our development have been a multitude of emotions. In three years we have tasted the freshness of new knowledge, discontent over school policies, exhilaration of a victorious state game, apathy of a few, and participation by many. Each phase enriched our growth and molded us into the people we will be after graduation.

High school can be the sunrise of maturity. But we must look around us and experience what it offers. Only then will the dawning begin.
